How do the mission and goals of your organization relate to those of MOSAIC's mission and philosophy? (attach additional paper if necessary)

"MOSAIC's mission is to provide support services and educational opportunities for students, and prepare innovative, socially-just leaders for our global community. We are also dedicated to enhancing and advocating for the academic and cultural empowerment of historically underrepresented students."

"The programs offered by MOSAIC seek to achieve social justice by promoting and fostering understanding, interaction, and communication in an inclusive environment amongst the students of SJSU. By social justice, we mean that our programming seeks for full and equal participation of all groups in society. 'Social justice includes a vision of society that is equitable and all members are physically and psychologically safe and secure.' (Adams, Bell & Griffin, 1997) MOSAIC is a center that facilitates an evolutionary journey for students' personal growth by learning about cultural and social differences. Our programs seek to acknowledge the importance of difference while at the same time, embrace these differences as characteristic of the larger global community that we all reside in.
