

Name: Mai Luong

Position Title: Program Analyst

Department: EAS Systems

Description of professional development activity and dates:

Web design training in Introduction to HTML, XML and JavaScript (2/13, 2/14, 2/18, 2/19)

Highlights of new information and/or best practice learned at activity:

These classes help me to understand how web pages are created, how the Extensible markup Language is applied to XML documents, and how scripting languages are utilized to enhance web pages.

How will you incorporate this new information into your position and in your department?

I have incorporated this new information when I validated the accessibility of the EAS NextSteps web pages. These classes help me greatly to do my audit of departmental web pages and my future complex web assignments.

How will your participation contribute to student learning at SJSU?

We ensure all students are able to access our EAS NextSteps website. That website provides instructions to students on intent to enroll, advisement, registration and enrollment process.

How will you share the results of your experience with colleagues in the Division of Student Affairs?

I shared my experience with my colleagues when we validated and corrected the web pages together.

Is there a website where interested staff could learn more information about this particular professional development activity?

There is no website about this activity.
